

Remember Your Cheering Section

Hi Bucket Filler!

As we honor our many graduates, it's important to honor and celebrate the people who helped them succeed—the bucketfilling educators, parents, involved grandparents, and others—who bettered these children and helped them grow into wholesome, competent, happy young adults.

Bucket fillers are the true rock stars in a person's life. They don't pamper, but they cheer you on. Think about your bucket fillers . . .

Who was, or is, in your cheering section?

I hope several people come to mind because we all need bucket fillers. These people jump for joy when we succeed and give us the strength to try again when we fail. Why not add some joy to your bucket. Think about and then thank the bucket fillers in your life.
